Art Unit: 1653

1. Applicant's election with traverse of Group I in Paper No. 10 is acknowledged. The traversal is on the ground(s) that there is no serious burden to search all three groups. This is not found persuasive because each group is independent and distinct as set forth in the previous office action and because of the separate art areas a search of all the groups does constitute a serious burden. The pharmaceutical art is very broad and different from the synthesis and methods of making art as well as the methods of treatment art areas.

The requirement is still deemed proper and is therefore made FINAL.

The previous election of species as set forth needs revision. The election should include all of the species set forth in each of the groups to identify an ultimate species.

A. each of the three agents

1. agent i.

2. agent ii

3 agent iii

B. the insulin sensitizer

C. the surfactants.

Applicant should set forth each of the substituents which make up the ultimate species to meet the election of species requirement. Applicants should also set forth the claims that are readable thereon.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Avis M. Davenport whose telephone number is (703) 308-4002. The examiner can normally be reached on T-F(10:00-8:00) Mondays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher Low can be reached on (703) 308-2923.
